

P Series Etching Presses

The "Professional" Etching Presses.

The large diameter rollers (19cm) ensure uniform pressure distribution.

Rollers are supported by oversized, maintenance-free bushings.

The large ratio gearbox and the large 4 spokes wheel, provide easy and smooth printing. The gearbox is mounted on the upper roller.

The bed plate is made of 10cm high strength steel and has a 1mm galvanized steel cover. It is supported and guided by roller bearings and has elastic stops at the ends.

Press is supported by 4 swivel, adjustable height feet, so it can be placed on uneven ground.

Pressure gauges, with 0.1mm accuracy, provide ease of height adjustment when using different materials

Maximum opening: 4cm (10cm upon request).
